

GCI-Introduction To Latex

MADE FOR GCI BY AYUSH19

Hello, my name is Ayush, I am 17 years old and I am currently in 12th grade in Amity International School. I have coding, graphic designing, playing cricket and video games as my hobby. I have decided that I will pursue a career in the field of software development and coding

GCI till now has been a wonderful experience for me , I have tried and accomplished things which I didn't even think of doing. I have been working really hard for GCI with the aim of not only winning but contributing to this amazing initiative of open source.

I have a github as well(some repositories are private for now) click.
